Academic Challenges

This optional section can help explain a low grade, a drop in grade, special circumstances related to COVID-19, or any other issue pertaining to your academic history.

Major

Choosing a second-choice major will ensure you're considered for all avenues of admission. If you only choose one major, you'll be reviewed for that major.

Choose one major if you are very firm on your major and will only go to a school that admits you to that program.

- If you select a second-choice major, you'll be reviewed for your first choice. If you aren't admissible, you'll be considered for your second choice. Illinois residents who aren't admissible to either major will be considered for all avenues of admission, including the Division of General Studies (DGS).
- If you select a specific major as your second choice, you must write a second essay about your interest in that program. If you select DGS as your second choice, you don't have to write a second essay.
- If you're admitted to an alternate major, you'll still be considered wait listed for your first-choice major if space opens up later.

Essay

The Essay section of the Coalition Profile won't be required or used in our admission review if submitted. However, there is a required essay within our application pages.

Explain your interest in the major you selected and describe how you have recently explored or developed this interest inside and/or outside the classroom. You may also explain how this major relates to your future career goals. If you're applying to DGS, explain your academic interests and strengths or your future career goals. You may include any majors or areas of study you're currently considering. Limit your response to 300 to 400 words. If you select a second-choice major other than DGS on your application, write a second essay explaining your interest in this major, too. Again, limit your response to 300 to 400 words.
